EXPERIENCE

GE Vernova | Birr, Switzerland

Product Quality Engineer Intern (operations)

September 2025–February 2026

- Managed continuous improvement in the “Built-In Quality” transformation across 4 turbine parts production lines.
- Accelerated a transport process by 80% & coordinated lean internal logistics improvements.

Boston University | Boston, MA USA

Research Fellow at the Lubner Group

August 2024–June 2025

- Modeled mass & heat transport for carbon capture and thermal wave sensing using a custom Python framework and COMSOL.
- Fabricated thermal wave sensors in a cleanroom & prototyped a continuous gas and heat cycling chamber.

Sensirion AG | Stäfa, Switzerland

R&D Intern in the Temperature and Humidity Sensors Team

September 2023–February 2024

- Prototyped, developed, built, and iterated on a high-precision humidity sensor, costing 1% of the alternatives.
- Reduced stabilization time by 50% with respect to reference R&D equipment using integrated control in C and Arduino.

ETH | Zürich, Switzerland

Research Assistant at EIS in the Institute for Neuro-Informatics

February 2023–June 2023

- Tested a novel evolutionary algorithm for training spiking neural networks that perform AI tasks on the edge of hardware.

EPFL | Lausanne, Switzerland

Research Assistant at LMIS1

February 2022–June 2022

- Optimized a class of thermally sensitive electro-magnetically coupled superconducting resonators using COMSOL EM library.
- Achieved quality factor of 5000, and generated 15+ highly valuable physical insights.

EPFL | Lausanne, Switzerland

Research Assistant at MOBOTS - Hiveopolis

September 2021–January 2022

- Designed, modeled, assembled, automated a robotic laser vibration analysis platform dividing characterization time by 60.

EDUCATION

ETH | Zürich, Switzerland

Master of Science (M.Sc.) in Mechanical Engineering (GPA 5.5/6)

August 2025

EPFL | Lausanne, Switzerland

Master of Science (M.Sc.) in Microengineering (Discontinued after 61ECTS, GPA 5.3/6)

July 2022

EPFL | Lausanne, Switzerland

Bachelor of Science (B.Sc) in Microengineering (GPA 5.23/6)

July 2021

USJ | Beirut, Lebanon

Off-Curriculum International Relations Studies

December 2017

LEADERSHIP

Panel Discussion | Zürich, Switzerland

Host, Event Organizer

January 2024–May 2024

- Coordinated and moderated a debate about carbon pricing in front of a 200+ person audience.

ShARE EPFL | Lausanne, Switzerland

Interim Vice-President

June 2022–November 2022

Mentor, Consultant

September 2020–June 2022

- Coordinated the association & completed “ShARE’s Leadership Programme of Excellence”, a social impact focused program.
- Collaborated with EPFL’s startup accelerator by completing the product-market fit analysis for 3 startups.

iGEM Synthetic Biology Competition | Cambridge, MA (USA)

Head Engineer, Gold Medal, Best Website, Best Environmental Project Nomination

February 2021–November 2021

- Prototyped of a reactor for bioremediation of heavy metals and participated in bio- and chemical- synthetic biology experiments.
- Involved 3 stakeholders, raised awareness around the issue in 2 high schools & through a 4 episode podcast.

LANGUAGES

English: C2 (Native).

French: C2 (Native).

German: C1 (Proficient).

Swedish: B1 (Conversational).

SKILLS

Project Management & Leadership
Communication & Presentations
Quality

HW/SW/FW Development
Design & Manufacturing
Embedded systems

Multiphysics Simulation
Sensor Technologies
Energy Systems
